1. Hide Price Call for Price for Magento 2 Overview

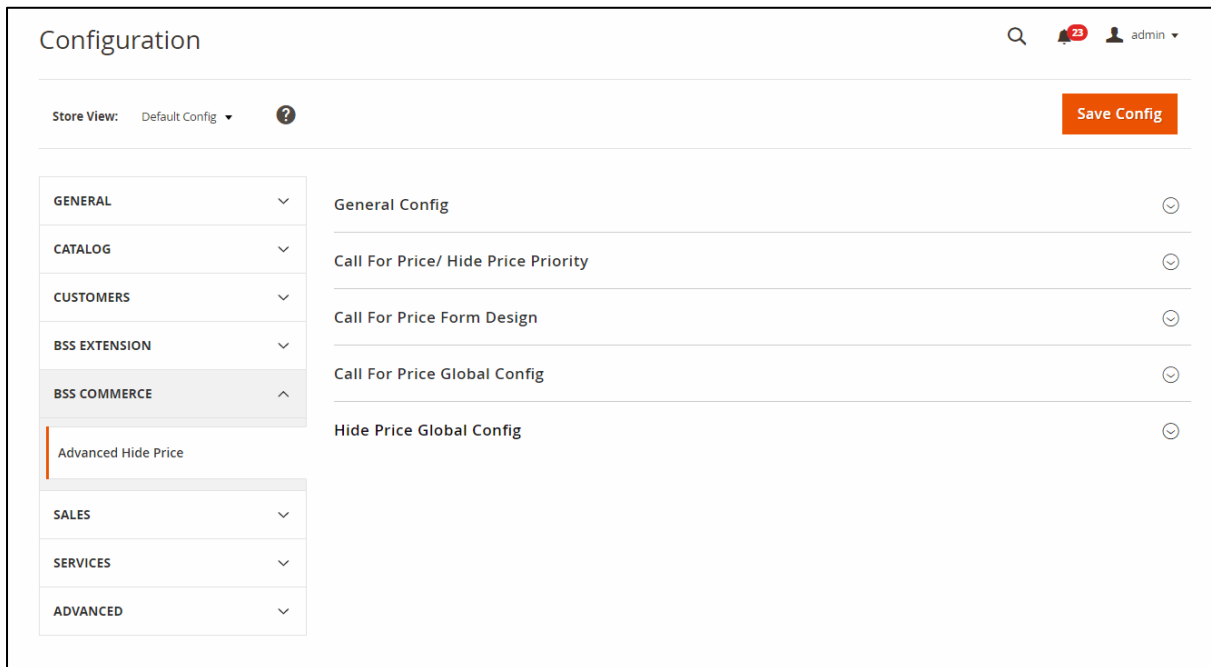

[Hide Price/Call For Price for Magento 2](#) allows to flexibly hide price for a particular product, a certain category, or specific customer groups. Besides hiding price, the extension also hide “Add to Cart” button and replace it with a custom message or a Call for Price button that link to an Inquiry form in Ajax popup to obtain customer’s request.

2. How Does Hide Price Call for Price for Magento 2 Work?

2.1. In Configuration

Navigate to **BSS Advanced Hide Price → Configuration**.

In **Configuration**, there are five main sections: General Config, Call For Price/Hide Price Priority, Call For Price Form Design, Call For Price Global Config and Hide Price Global Config.Product Config

2.1.1. In General Config

General Config

Enabled Advanced Hide Price [store view] Yes
Version 1.0.4

'Add to Cart' Button Selector [store view]
Magento default: '.action.tocart'. Change selector of 'Add to Cart' button according to theme/site.

Email Answer Customer Inquiry [store view] General Contact

Email Template [store view] CallForPrice Admin Response (Default)
Email template chosen based on theme fallback when "Default" option is selected.

Email Notify Admin [store view] testmagento321@gmail.com

Email Template [store view] CallForPrice Notify For Admin (Default)
Email template chosen based on theme fallback when "Default" option is selected.

In **Enabled Advanced Hide Price**, choose Yes to enable the extension or No to disable it.

In **Add to Cart Button Selector**, you can enter the selector of Add to Cart button depending on the theme or site.

In **Email Answer Customer Inquiry**, select an email to send reply to customer's request then select **Email Template**.

In **Email Notify Admin**, fill in your email to immediately receive email notifying customer request, then select **Email Template**.

2.1.2. In Call For Price/Hide Price Priority

Call For Price/ Hide Price Priority

Priority [global]
CallForPrice
HidePrice

Prioritize Call For Price or Hide Price Config by selecting that config in **Call For Price/Hide Price Priority**.

2.1.3. In Call For Price Form Design

Call For Price Form Design

Call For Price Form <small>[store view]</small>	Label	Type	Order	Required	Enable	Action
	Your request	Text Area	20	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
	Your phone n	Text Fie	10	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
<input type="button" value="Add"/>						

Add more fields to customize Inquiry Form

Show Customer Name And Email Fields
[store view]

No

Show/Hide customer name field and email field when customer has logged in

AntiSpam Protection
[store view]

Yes

Site Key

[Create a site key](https://www.google.com/recaptcha/admin)

In **Call For Price Form**, customize the inquiry form by adding/ deleting fields in the form to obtain customer requests. Filling in the following options:

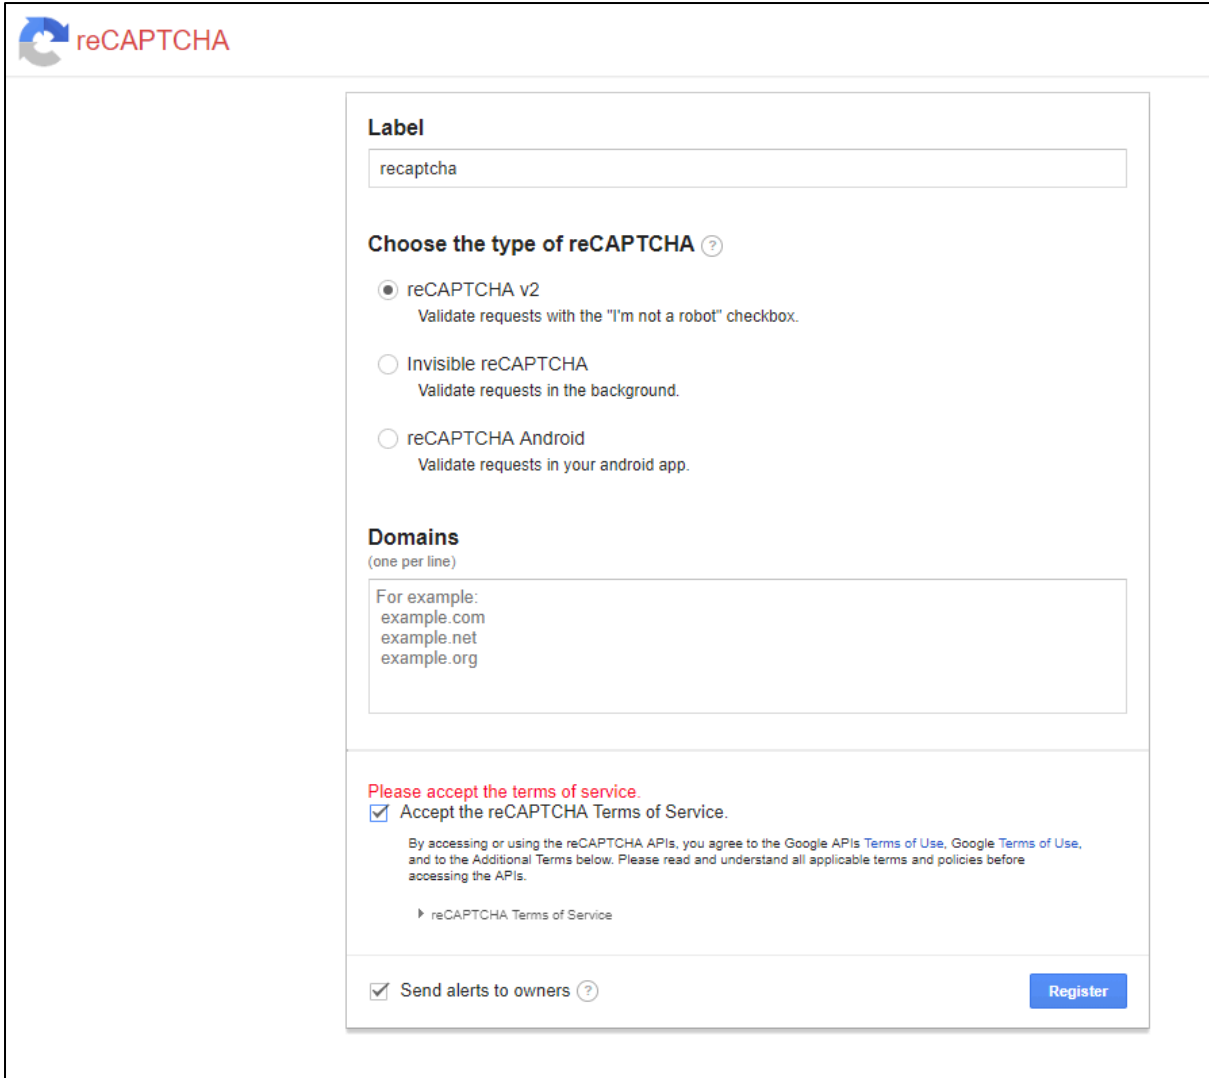

- Decide filed name in **Label**. E.g: Customer request.
- Decide filed type in **Type**. There are 3 options to select: Text Field, Text Area, Checkbox.
- Decide the order of the field in Inquiry Form in **Order**.
- Tick **Enable** checkbox to enable the field or **Required** to make the field compulsory to fill in, or click action button to discard it.

In **Show Customer Name and Email**, choose No to exclude Name and Email field in Inquiry Form if customers have logged in their accounts on site. Otherwise choose Yes to include these filed for both logged-in and non-logged-in customers.

In **AntiSpam Protection**, choose Yes to enable reCaptcha test, or No to disable it.

If you choose Yes, 2 options will be displayed: Site Key and Site Secret.

To create site key and site secret, go to <https://www.google.com/recaptcha/admin#list>

The image shows the reCAPTCHA registration interface. At the top left is the reCAPTCHA logo. The form is divided into several sections:

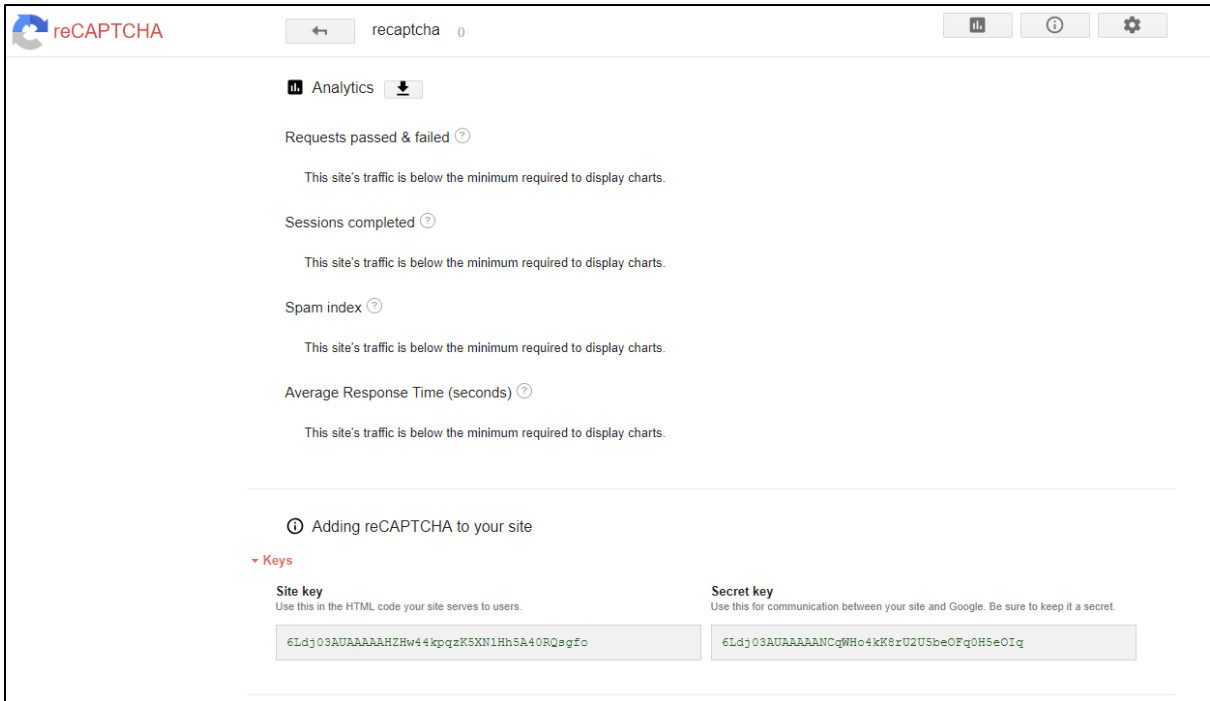

- Label:** A text input field containing the word "recaptcha".
- Choose the type of reCAPTCHA:** Three radio button options:
 - reCAPTCHA v2: Validate requests with the "I'm not a robot" checkbox.
 - Invisible reCAPTCHA: Validate requests in the background.
 - reCAPTCHA Android: Validate requests in your android app.
- Domains:** A text area with the instruction "(one per line)" and the example text: "For example: example.com, example.net, example.org".
- Terms of Service:** A section titled "Please accept the terms of service." with a checked checkbox for "Accept the reCAPTCHA Terms of Service." Below this is a link to "reCAPTCHA Terms of Service".
- Alerts:** A checked checkbox for "Send alerts to owners".
- Register:** A blue button labeled "Register" in the bottom right corner.

In **Label**, enter the label for the reCaptcha test. For example: reCaptcha.

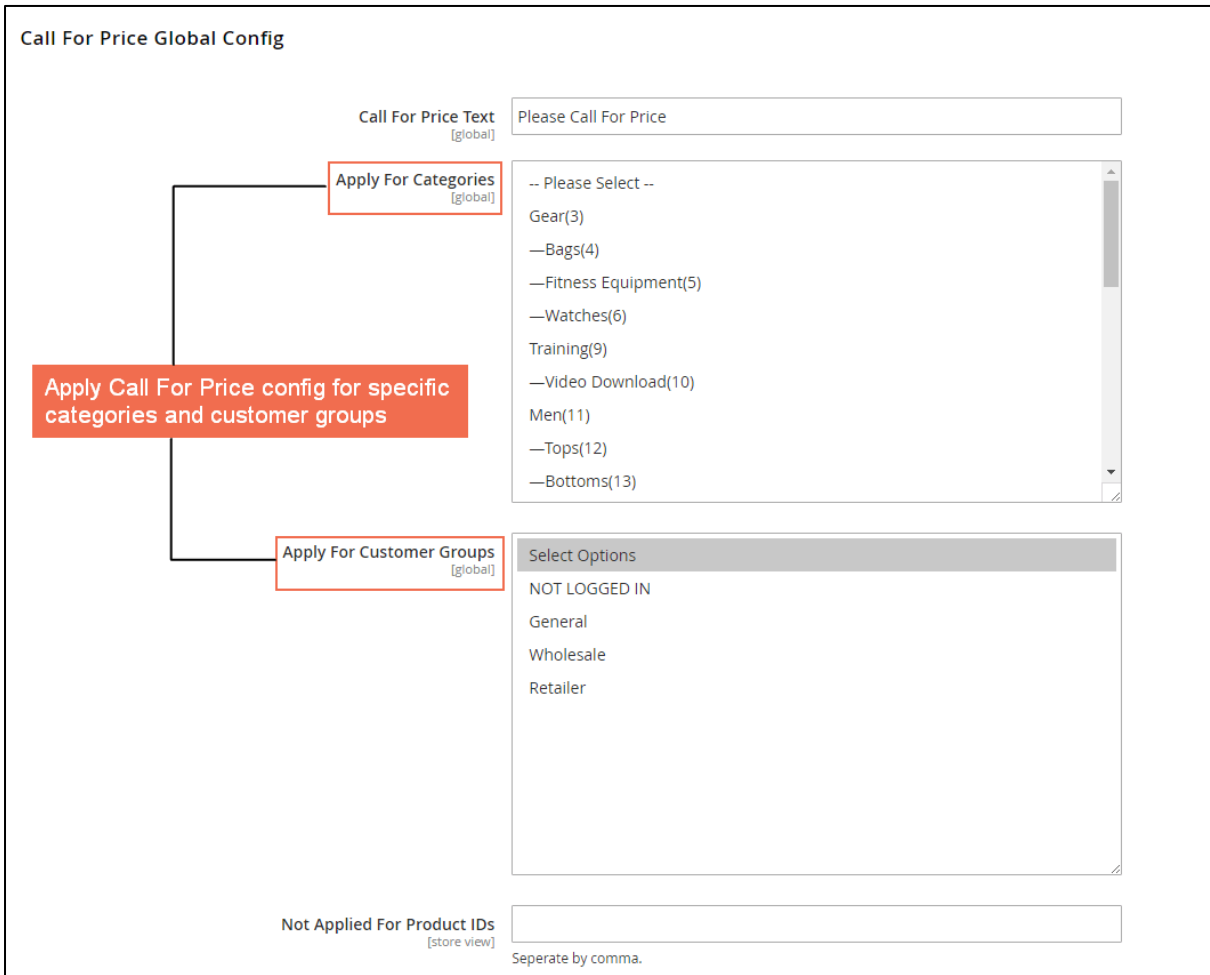

In **Choose the type of reCAPTCHA**, select reCAPTCHA V2.

Then click the Register button.

The recaptcha is now successfully created. Please copy the site secret key and site secret.

2.1.4. In Call For Price Global Config

In **Call For Price Text**, enter a text to display in Call For Price button which is in replace of Add to Cart button.

In **Apply For Categories**, select which categories to apply Call For Price config. Choose one, multiple or all categories.

In **Apply For Customer Groups**, select which customer groups to apply Call For Price config. Choose one, multiple or all customer groups.

In **Not Applied For Product IDs**, enter ID of products to exclude from applying Call For Price config.

2.1.5. In Hide Price Global Config

The screenshot shows the 'Hide Price Global Config' form with the following fields and values:

- Hide Price Text** [global]: Please Login to view prices.
- Apply For Categories** [global]: A dropdown menu with the following options: -- Please Select --, Gear(3), --Bags(4), --Fitness Equipment(5), --Watches(6), Training(9), --Video Download(10), Men(11), --Tops(12), --Bottoms(13).
- Apply For Customer Groups** [global]: A dropdown menu with the following options: Select Options, NOT LOGGED IN, General, Wholesale, Retailer.
- Not Applied For Product IDs** [store view]: 1007, 1020. Below the field, it says 'Seperate by comma.'

A red callout box with the text 'Apply Hide Price config for specific categories and customer groups' is connected by lines to the 'Apply For Categories' and 'Apply For Customer Groups' fields.

In **Hide Price Text**, enter a text to display in custom message which is in replace of Add to Cart button.

In **Apply For Categories**, select which categories to apply Hide Price config. Choose one, multiple or all categories.

In **Apply For Customer Groups**, select which customer groups to apply Hide Price config. Choose one, multiple or all customer groups.

In **Not Applied For Product IDs**, enter ID of products to exclude from applying Hide Price config.

2.2. In Customer Inquiry List

Go to **BSS Advanced Hide Price → Customer Inquiry List**.

In **Customer Inquiry List**, check the list of customers who have sent requests with information, including: ID (ID of request), product name, customer name, customer email, created at (time and date when customers sent request), email response and action.

ID	Customer Name	Customer Email	Created At	Email Response	Product	Action
20	Nguyen Van Tuan	estatic.fear2011@gmail.com	May 12, 2017 4:02:13 AM	No		Select
19	Nguyen Van Tuan	estatic.fear2011@gmail.com	May 12, 2017 4:01:53 AM	No		Select
10	hamy	johndoe@domain.com	May 11, 2017 11:00:14 AM	No		Select
5	Chinh	chinhnguyenftu2012@gmail.com	Feb 2, 2017 12:35:21 PM	Sent		Select
4	Chinh	chinhnguyenftu2012@gmail.com	Dec 26, 2016 3:51:44 AM	Sent		Select
2	Sophia	marsh.phan.123@gmail.com	Dec 23, 2016 3:06:09 AM	Sent		Select
3	Jenna	marsh.phan.123@gmail.com	Dec 23, 2016 3:05:16 AM	Sent		Select

In **Action**, choose View in dropdown Select to navigate to inquiry information page.

2.2.1. In General Information

Check information of the request sent from customer, including general information and additional information.

General Information

Customer	Name : Jenna - Email : [Redacted]	Detailed information of customer request
