1. Dynamic HTML Sitemap for Magento 2 Extension Overview

[Dynamic HTML Sitemap for Magento 2](#) by BSSCommerce is developed to generate a detailed and useful sitemap including links to categories, products, CMS pages and store views of your Magento 2. This module helps enhance SEO performance of your business and provide your customers with a clear structure of your site.

2. How Does Dynamic HTML Sitemap for Magento 2 Extension Work?

You go to **Stores** → **Configuration** → **BSSCOMMERCE** → **HTML Sitemap** to start setting up.

Please flush all Magento caches after you make any configuration of the module for the changes to take effect.

In **Enable**, choose **Yes** to enable module, otherwise choose **No**.

In **Title of Site**, choose the title for the sitemap.

In **Session Order**, fill in the order of sessions to be displayed. Please fill in all 4 items separated by a coma. ID of sessions as below:

- 1: Product List
- 2: Store View List
- 3: Additional Link List
- 4: Category and CMS Page List
