1. Checkout Success Page for Magento 2 Overview

[Magento 2 Checkout Success Page](#) is an extension that allows store owners to customize Checkout Success Page (known as Thank You Page) as they want, display order details and style success page with a thank you message, a coupon code, CMS blocks, suggested products, etc. With this module, your thank you page will be more informative and will give customers the convenience in the checkout process.

2. How Does Checkout Success Page for Magento 2 Work?

Please go to **Store → Configuration → BSSCommerce → Checkout Success Page**

2.1. General

General Configuration

Enable [store view] Yes

In **General**: choose Yes to enable the module, No to disable it.

2.2. Order Information Section

Order Information Section

Enable [store view] Yes

Show Order Status [store view] Yes

Show Product Thumbnail [store view] Yes

Show Reorder Button [store view] Yes

Show Print Button [store view] Yes

In **Enable**: choose Yes to enable section, or No to disable it

In **Show Order Status**: choose Yes to enable order status, or No to disable it

In **Show Product Thumbnail**: choose Yes to enable product image, or No to disable it

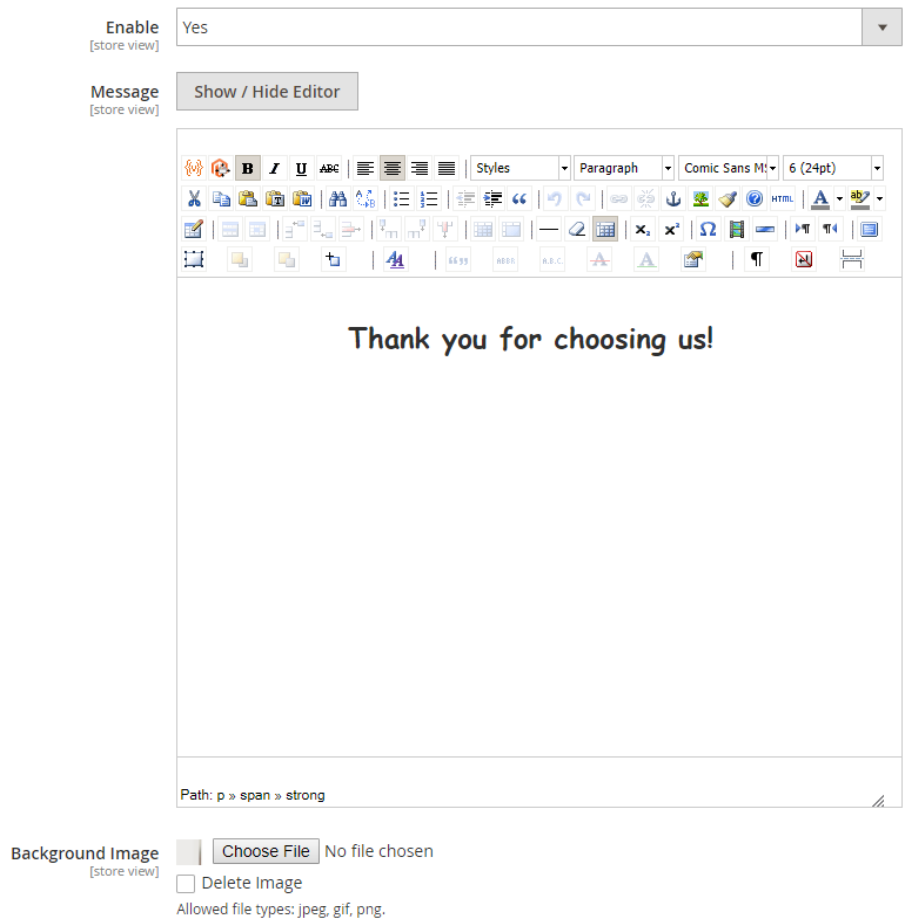

In **Show Reorder Button**: choose Yes to enable, or No to disable it

In **Show Print Button**: choose Yes to enable, or No to disable it

Notice: Other order information like shipping address, shipping method, payment method, billing address and order summary are set to enable/disable with the whole section.

2.3. Thank You Message

Thank You Message

In **Enable**: choose Yes to enable Thank you message on success page, or No to disable it.

In **Message**: edit Thank you message.

In **Background Image**: insert background image for Thank you message.

Note: In case you don't add the background image, this module still support displays the text message well.

2.4. Coupon Code Section

Coupon Code Section

Enable <small>[store view]</small>	Yes
Sort Order <small>[store view]</small>	1
Enable For Customer Groups <small>[store view]</small>	<div style="border: 1px solid #ccc; padding: 5px;"> <p>ALL GROUPS</p> <p>NOT LOGGED IN</p> <p>General</p> <p>Wholesale</p> <p>Retailer</p> </div>
Description <small>[store view]</small>	Have a wonderful purchase with this coupon code!
Use Coupon Code <small>[store view]</small>	Custom Coupon Code
Custom Coupon Code <small>[store view]</small>	Summer3000
Min Subtotal <small>[store view]</small>	100
Background Image <small>[store view]</small>	<input type="button" value="Choose File"/> No file chosen <input type="checkbox"/> Delete Image <small>Allowed file types: jpeg, gif, png.</small>

In **Enable**: choose Yes to enable coupon code section, or No to disable it.

In **Sort Order**: select number (1 to 6) to set the position of this section in the frontend.

In **Enable for Customer Groups**: choose customer groups who can see the coupon code.

In **Description**: text a description for the coupon code.

In **Use Coupon Code**: choose available coupon code in the database or choose “Custom Coupon Code” to enter a coupon code not been in the sale rules database.

Note: The Custom Coupon Code field and Min Subtotal field only appear when you select Custom Coupon Code option.

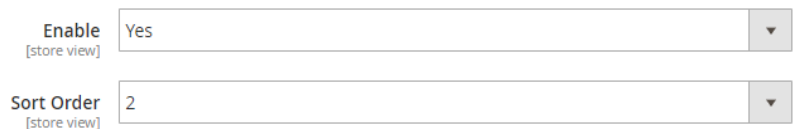

In **Custom Coupon Code**: enter a coupon code. This coupon code can be from the third party extension or from another store.

In **Min Subtotal**: set the minimum amount of merchandise that the customer must purchase to qualify for the discount. This feature is valid only for the coupon entered in Custom Coupon Code field above.

In **Background Image**: click **Choose File** button to insert background image for the coupon code.

2.5. Social Network Sharing Section

Social Network Sharing Section

The screenshot shows two configuration fields for the Social Network Sharing Section. The first field is labeled 'Enable' with a sub-label '[store view]' and contains the value 'Yes'. The second field is labeled 'Sort Order' with a sub-label '[store view]' and contains the value '2'. Both fields have a dropdown arrow on the right side.

In **Enable**: choose Yes to enable social networks sharing section, or No to disable it.

In **Sort Order**: select number (1 to 6) to set the position of this section in the frontend.

Note: this module shares the website homepage on social networks not the success page.

2.6. Subscription Section

Subscription Section

The screenshot shows two configuration fields for the Subscription Section. The first field is labeled 'Newsletter Subscription' with a sub-label '[store view]' and contains the value 'Yes'. The second field is labeled 'Sort Order' with a sub-label '[store view]' and contains the value '3'. Both fields have a dropdown arrow on the right side.

In **Enable**: choose Yes to enable subscription section, or No to disable it.

In **Sort Order**: select number (1 to 6) to set the position of this section in the frontend.

2.7. CMS Block Section

CMS Block Section

Enable Block 1 <small>[store view]</small>	Yes
CMS Block 1 <small>[store view]</small>	Giftcard Block
Sort Order Block 1 <small>[store view]</small>	6
Enable Block 2 <small>[store view]</small>	Yes
CMS Block 2 <small>[store view]</small>	Show / Hide Editor

TO GET MANY INTERESTING GOODS, PLEASE CONSIDER NEW PRODUCTS IN OUR STORE!

Path: p » span

Sort Order Block 2 <small>[store view]</small>	4
---	---

In **Enable Block1** and **Enable Block 2**: choose Yes to enable CMS Block 1(2), or No to disable.

In **Sort Order Block 1** and **Sort Order Block 2**: select number (1 to 6) to set the position of sections in the frontend.

In **CMS Block 1**: select available CMS Block in your store.

In **CMS Block 2**: edit a new CMS Block.

2.8. Products Suggestion Section

Products Suggestion Section

Enable <small>[store view]</small>	Yes	▼
Sort Order <small>[store view]</small>	5	▼
Product Type <small>[store view]</small>	Related Products	▼

In **Enable**: choose Yes to enable social network sharing buttons, or No to disable it.

In **Sort Order**: select number (1 to 6) to set position of this section in frontend.

In **Product Type**: choose Related Products, Cross-sell Products or Up-sell Products to be displayed in success page.

2.9. Frontend Preview

Frontend Preview

Order Number <small>[store view]</small>	00000011
Preview Here <small>[store view]</small>	Test checkout success page in a new window

In **Order Number**: enter order number of an order that you want to watch its success page.

In **Preview Here**: click on the link to go to success page in the frontend of that order.

In case the order number that you fill in does not exist, the success page of the latest order will be presented when you click on the link.

Note: you need to save config before clicking on the link to preview the success page of the order.

2.10. Custom Style

Custom Style

Totally change style of buttons, title and custom success icon

Button Text Color <small>[store view]</small>	<input style="width: 100%;" type="text" value="#ffffff"/>
Button Background Color <small>[store view]</small>	<input style="width: 100%; height: 20px;" type="color" value="#2185ff"/>
Success Icon <small>[store view]</small>	<input type="button" value="Choose File"/> No file chosen <input type="checkbox"/> Delete Image <small>Allowed file types: jpeg, gif, png.</small>
Success Text <small>[store view]</small>	<input style="width: 100%;" type="text" value="Success"/>
Title Background Color <small>[store view]</small>	<input style="width: 100%; height: 20px;" type="color" value="#0094b5"/> <small>Change style of title buttons: Shipping Address, Shipping Method, Billing Address, Payment Method, Order Summary, and Recommended Products.</small>
Title Text Color <small>[store view]</small>	<input style="width: 100%;" type="text" value="#ffffff"/>
Title Border Color <small>[store view]</small>	<input style="width: 100%;" type="text" value="#ffffff"/>

- ❖ Change style of buttons: Print order, Re-order, Continue Shopping, and Subscribe.

In **Button Text Color**: set the color for text in buttons.

In **Button Background Color**: set the background color for buttons.

- ❖ Custom Success title

In **Success Icon**: upload an icon to be display along with the success title

In **Success Text**: edit a short title for the success page.

- ❖ Change style of title boxes, including: Shipping address, Shipping method, Billing address, Payment method, Order summary, and Recommended products.

In **Title Background Color**: choose the background color for the title box.

In **Title Text Color**: choose text color

In **Title Border Color**: choose border color for the title box.

Note: - Because the scope of the module configuration is store view, you can customize the success page for each store view.

After setting, you need to save your configuration then flush cache to start using the module.
