1. Size Chart for Magento 2 Overview

[Magento 2 size Chart extension](#) is an essential tool that helps increase remarkably customer experience. The module allows you to create and assign size chart to product conveniently. Moreover, there are three ways to perform size chart if you use this extension. A size chart can be shown in popup, under Add to Cart button or in product information tab..

2. How Does Size Chart for Magento 2 Work?

2.1. General Configuration

Please go to **Store** → **Configuration** → **BSSCommerce** → **Size Chart**

General Configuration

Enabled [store view] Yes Version 1.0.0

Default Display [global] In Popup

Link Popup Text [store view] Size Chart

Text Color: [store view] #361cff

Icon [store view] No file chosen
 Delete Image
 Allowed file types: jpeg, gif, png.

In **Enabled**: choose Yes to enable the extension, or No to disable it.

In **Default Display**: select an option to set the default performance of size chart, which means that if you don't set the display for a size chart, this size chart will be presented on the frontend as the default display chosen in this config. There are 3 options for you to select:

- **Under Add to Cart Button**: display size chart right on product page, under the Add to Cart Button.

Size

XS S M L XL

Color

Qty

1

The Size Chart is displayed under the Add to Cart button

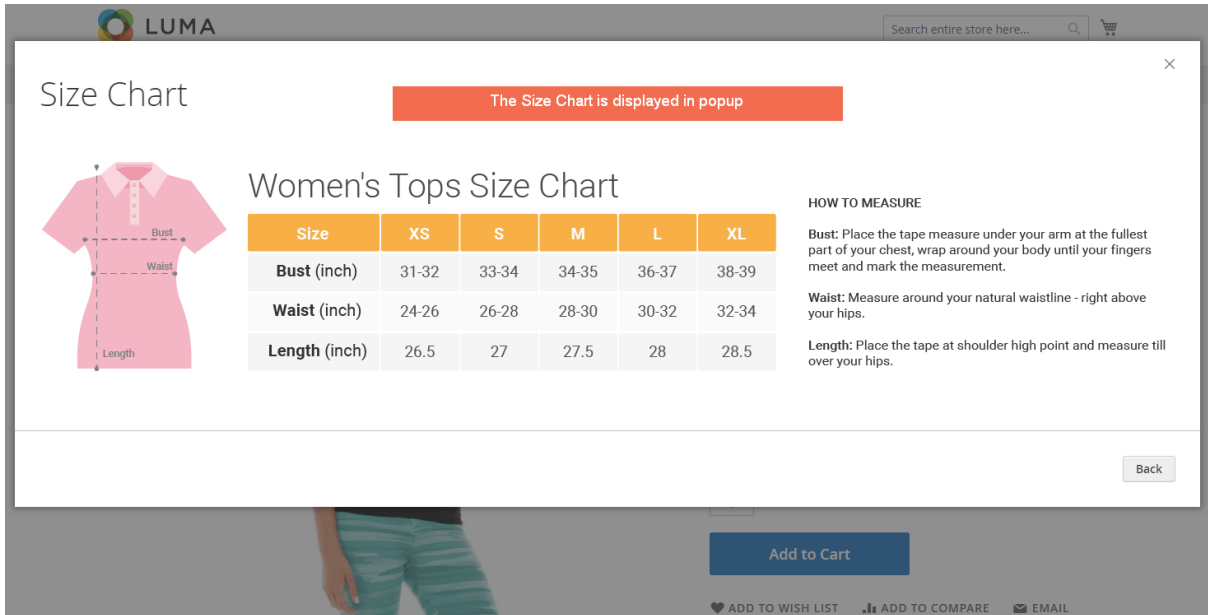

Add to Cart

Women's Tops Size Chart

Size	XS	S	M	L	XL
Bust (inch)	31-32	33-34	34-35	36-37	38-39
Waist (inch)	24-26	26-28	28-30	30-32	32-34
Length (inch)	26.5	27	27.5	28	28.5

- **In Popup:** display size chart in a popup. A popup link will be added to product page then customers can click on this link to view the size chart in popup. You also can edit link text and color without difficulties.

- **On Information Section:** display size chart on a new tab of product information section.

Customize the popup link:

- In **Link Popup Text:** edit text of popup link.
- In **Text Color:** set the color of the popup link.
- In **Icon:** upload the icon of size chart popup link.

After complete settings, please press “**Save Config**” then flush Cache to make these settings come into effect.

Note: Because the scope of the module configuration is store view, you can customize for each store view.

2.2. Size Chart Management

Please go to **Catalog** → **Size Chart** → **Size Chart Management**.

A grid listing all size charts will appear.

Display

- In popup
- On Information Section
- Under Add To Cart Button

Priority *

Overwrite

Store View * All Store Views ?

- All Store Views
- Main Website
- Main Website Store
- Default Store View

In **Display**: select the ways to perform the size chart on the product page: **In Popup**, **Under Add to Cart Button** or **On Information Section**. You can select more than one option and the size chart will be shown on product page as all ways you selected.

In **Priority**: enter a number to set sort order for the size chart. Because a product page only can display one size chart so if a product is assigned many size charts, the size chart has top-priority will be shown in the frontend.

In **Overwrite**: tick in this field to let the size chart be top-priority at the time you save size chart. After that, it will be cleared automatically, then you can tick “overwrite” for other size charts. A size chart can be recorded over other size charts that has the same scope.

In **Store View**: choose to enable the size chart for specific store view.

After complete all settings, please press “**Save Size Chart**” button to save the customization for size chart.

2.2.2. Managing Products assigned size chart

Please press “**Selected Products**” tab, you can see a grid displaying all products in website.

Search [Reset Filter](#) 17 records found

20 per page 1 of 1

<input checked="" type="checkbox"/>	Product ID ↑	Name	SKU	Price
Yes	From To			From To
<input checked="" type="checkbox"/>	2045	Erika Running Short	WSH12	\$45.00
<input checked="" type="checkbox"/>	2044	Erika Running Short-32-Red	WSH12-32-Red	\$45.00
<input checked="" type="checkbox"/>	2043	Erika Running Short-32-Purple	WSH12-32-Purple	\$45.00
<input checked="" type="checkbox"/>	2042	Erika Running Short-32-Green	WSH12-32-Green	\$45.00

In the first column:

- Select **Yes** then click on “**Search**” button to filter products that size chart is assigned to
- Select **No** then click on “**Search**” button to filter products that size chart isn’t assigned to
- Select **Any** then click on “**Search**” button to view all products in your site

You can assign the size chart to products quickly by an easy selection in this grid. Of course, you can sort by product ID, name, SKU or price to add size chart to selected products.

2.3. Assign a size chart to specific product

Please go to **Catalog** → **Products**, in the product grid, select a product that you want

to add size chart to.

This module adds a dropdown attribute displaying all created size charts to product edit page of all products. You can select a size chart option to assign to product then press “**Save**” button to complete.

The screenshot shows the product edit page for 'Joust Duffle Bag'. At the top, there is a breadcrumb 'Joust Duffle Bag' and navigation buttons: '← Back', 'Add Attribute', and 'Save'. The form contains several fields: 'Product Name' (store view) with value 'Joust Duffle Bag', 'SKU' (global) with value '24-MB01', 'Price' (global) with value '\$ 34.00' and a link to 'Advanced Pricing', 'Tax Class' (website) set to 'None', and 'Quantity' (global) with a link to 'Advanced Inventory'. The 'Size Chart' (store view) dropdown menu is open, showing 'Women's Dress Size Chart' and 'Women's Tops Size Chart'. A red callout box with the text 'Select a size chart to add to product' points to the dropdown menu.
