MAGENTO FREQUENTLY BOUGHT TOGETHER

USER GUIDE

Contents

1. Magento Frequently Bought Together Extension Overview

Your store will be more informative and attractive customers when you can display your main products more appealing in accordance with other related products. That creates Domino effects and your sale will be boosted amazingly. Acknowledging this behavior, BSS commerce has developed Magento Frequently Bought Together with the aim of displaying related products in a completely convenient and professional way.

2. How does Magento Frequently Bought Together Extension work?

You go to **System ➜ Configuration ➜ BSS Group ➜ Frequently Bought Together** to start setting up.

In **Enable add to Wishlist**, choose **Yes** to enable add all related products to Wishlist function, otherwise choose **No**.

In **Enable add to Compare**, choose **Yes** to enable add all related products to Compare function, otherwise choose **No**.

In **Limit Product**, choose a limit for the number of related products will be displayed.

In **Image Size**, choose the size (in px) for the image of the products in slider.

In **Max Slides**, choose the number of images displaying in each slide (including the '+' image).

In **Move Slides**, choose the number of new images displaying in each slide move (including the '+' image).
