1. Auto Invoice Extension Overview

[Auto Invoice Extension](#) simplifies order status management which not only reduces significant admin works but also satisfies customers' need. Customers always want the place order as fast as possible and at once. With Auto Invoice, all status of orders will be automatically changed into "Complete" and invoices will accordingly be created. As a result, Auto Invoice will put an end of overload of manually creating an invoice too much for Magento Store Owners.

2. How Does Auto Invoice Extension Work?

2.1. Invoice Management

After the orders has been successfully made with all required fields to be filled in, checking in your Sales → Invoices.

Submit your confirmed orders, and choose Action status into PDF if you want to attach invoice PDF files into the email. After submitting, Click View button.
