## 1. Shopping Cart Price Rule per Store View Overview

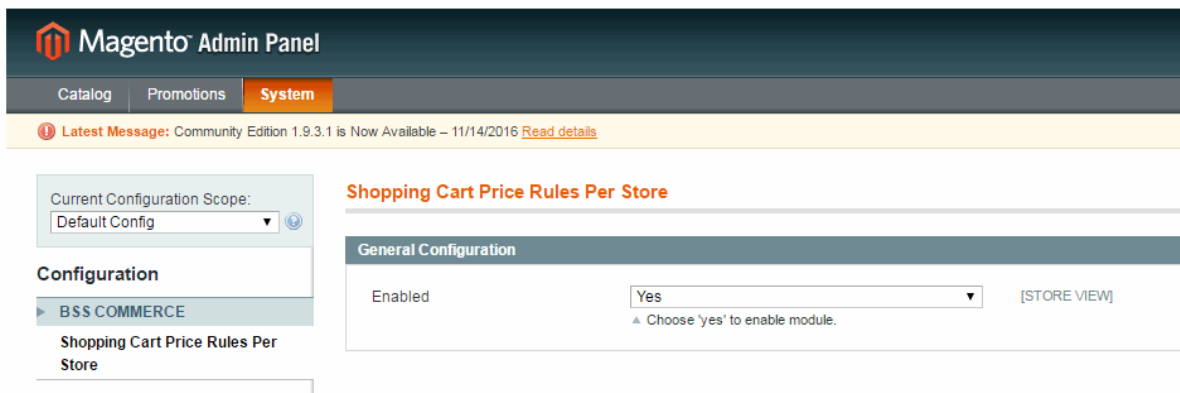

If you are using multiple store views function to do business on your Magento site, have you ever had a demand of creating different shopping cart rules for each store view? Do you want to offer different promotional prices for each target customer group in each store view?

[Shopping Cart Rules per Store View Extension](#) is developed to optimize the multiple store view function by enabling admin to set up different price rules in shopping cart of different store views. With this powerful extension, you can manage your promotional price strategy effectively, leading to boosting up sale and completing multiple store view system.

## 2. How Does Shopping Cart Price Rule per Store View Work?

### 2.1. Enable Shopping Cart Rules per Store View Extension

Please go to **System → Configuration → Shopping Cart Price Rule per Store**.

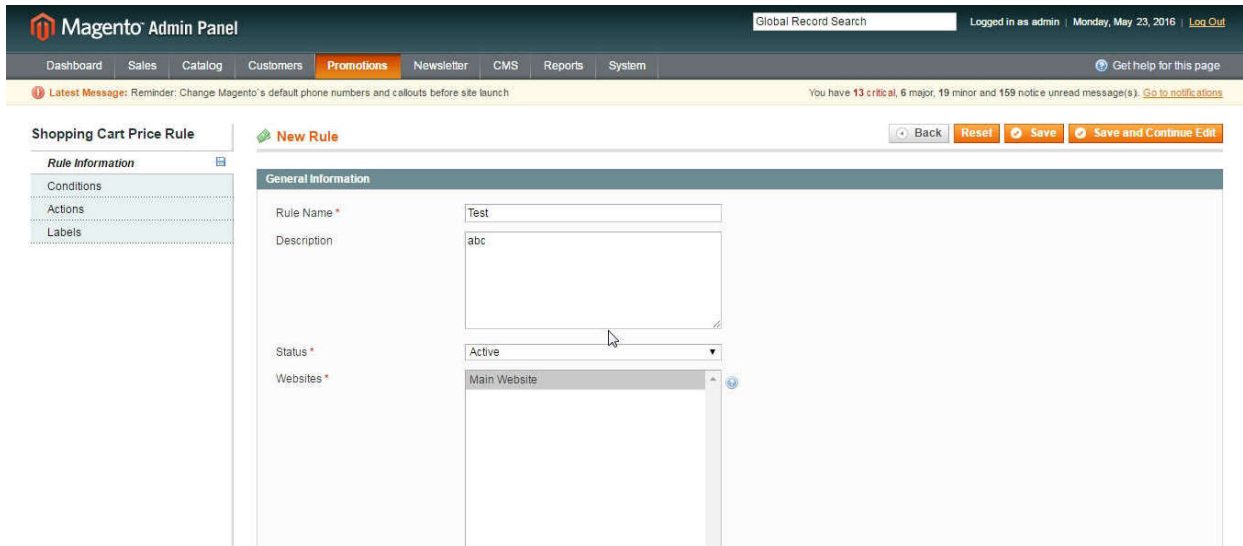

After choosing Yes to enable the extension and click Save Config to start set up shopping cart price rules per store as wish.

## 2.2. Set up different shopping cart price rules for store views

Go to **Promotions** → **Shopping Cart Price Rules** and click Add New Rule to customize rules for shopping cart in each store view.

In **Rule Information**, fill in Rule Name, Description, Status and other fields with needed information as usual.

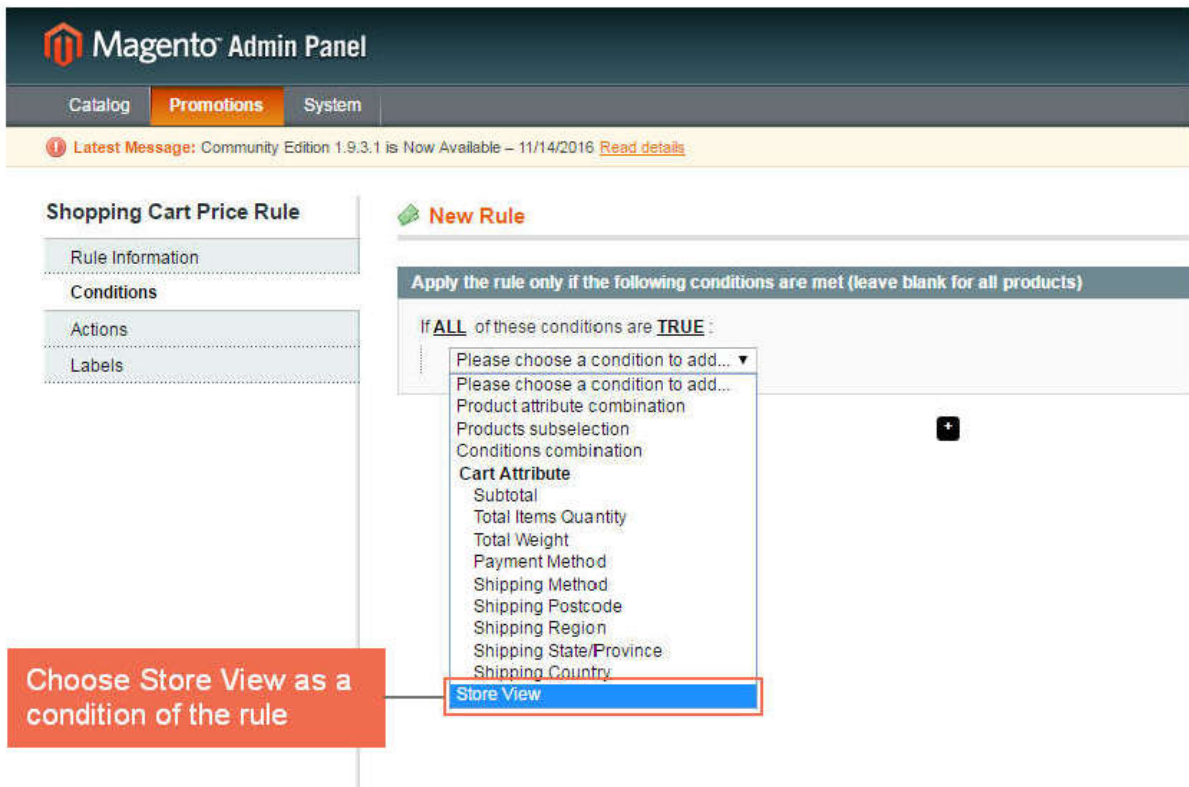

The screenshot displays the Magento Admin Panel interface for creating a new Shopping Cart Price Rule. The top navigation bar includes the Magento logo, 'Admin Panel', a search bar, and user information. The main menu shows 'Promotions' as the active section. A sidebar on the left lists 'Rule Information', 'Conditions', 'Actions', and 'Labels'. The main content area is titled 'New Rule' and contains a 'General Information' section with the following fields:

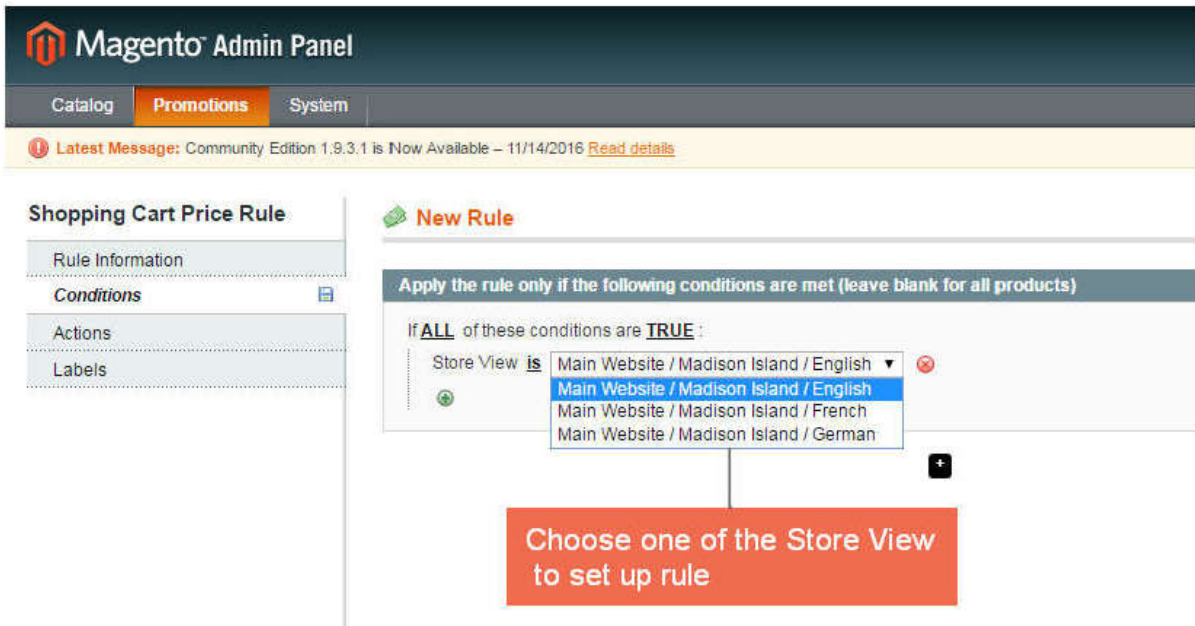

- Rule Name \***: Text input field containing 'Test'.
- Description**: Text area containing 'abc'.
- Status \***: Dropdown menu set to 'Active'.
- Websites \***: Multi-select dropdown menu with 'Main Website' selected.

Buttons for 'Back', 'Reset', 'Save', and 'Save and Continue Edit' are located at the top right of the form.

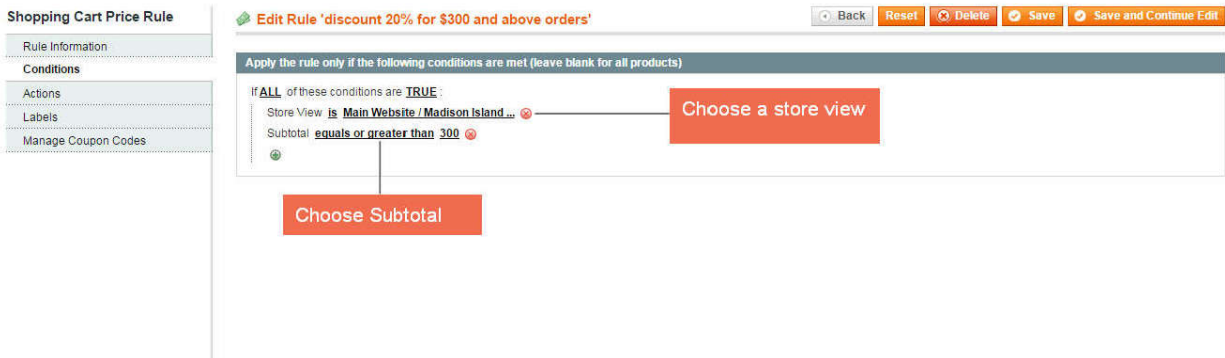

In **Conditions**, choose Store View as an option in condition for rule.

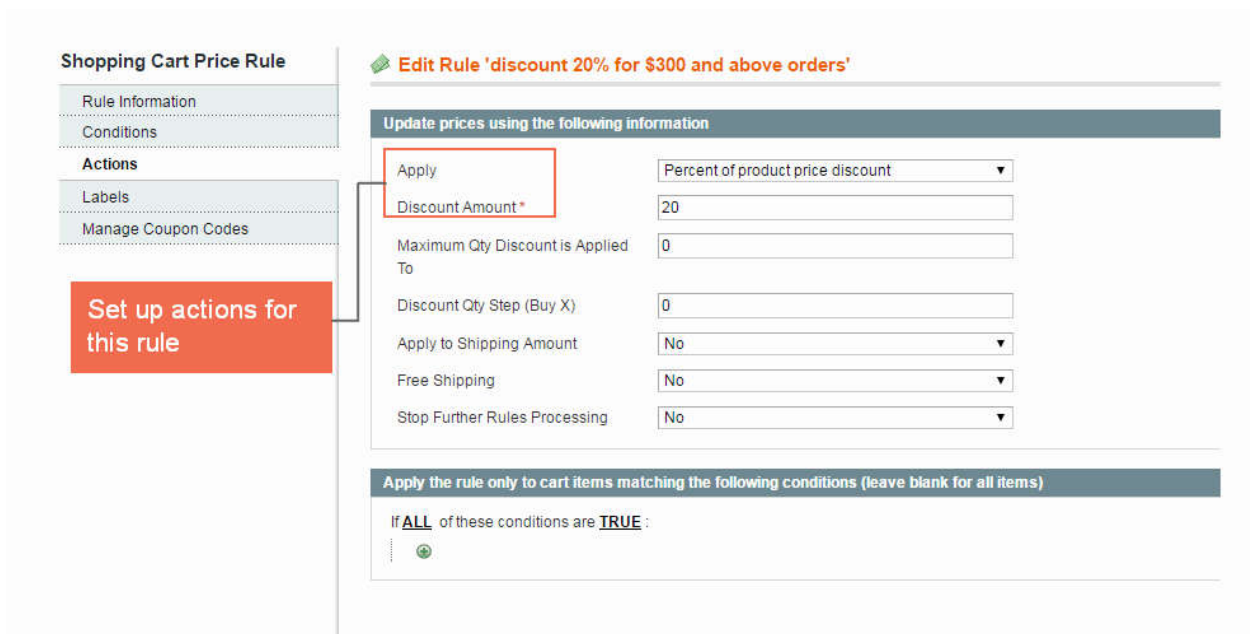

Then choose one Store View in the list of Website/ store/ store view that you want to set up rule for it.

Besides, you can add other conditions as wish.

In Actions, set up detail rules for the chosen store view:

Finally, you save configuration.

### 2.3. Examples

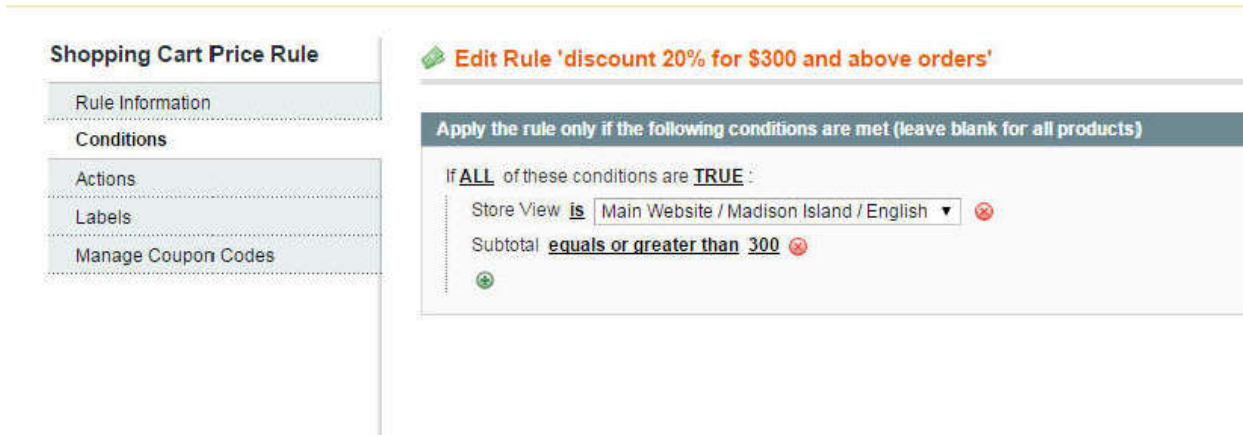

- ❖ **Example 1: Set up a rule "20% discount for \$300 and above orders" for English store view.**

After click "Add New Rule" button and fill in necessary information in Rule information section, you follow these two steps:

Step 1: In Conditions

Choose **Store View** as a condition and select **English** store view (Main Website/Madison Island Store/English).

Choose **Subtotal** as another condition and fill in information as the following image:

Step 2: In Actions

Go to **Actions**, choose **Percent of product price discount** as a rule to apply and fill in “20” in **Discount Amount** box:

**Shopping Cart Price Rule**

- Rule Information
- Conditions
- Actions**
- Labels
- Manage Coupon Codes

**Set up actions for this rule**

**Edit Rule 'discount 20% for \$300 and above orders'**

**Update prices using the following information**

Apply	Percent of product price discount
Discount Amount*	20
Maximum Qty Discount is Applied To	0
Discount Qty Step (Buy X)	0
Apply to Shipping Amount	No
Free Shipping	No
Stop Further Rules Processing	No

**Apply the rule only to cart items matching the following conditions (leave blank for all items)**

If **ALL** of these conditions are **TRUE**:

Step 3: Save configuration and go to the frontend to see changes:

YOUR LANGUAGE: English

WELCOME

**MADISON ISLAND** English Store View

Rule "20% discount for \$300 and above orders" is applied in English store view

❖ **Example 2: Set up a rule "10% discount for \$300 and above orders" for French store view.**

After click "Add New Rule" button and fill in necessary information in Rule information section, you follow these two steps:

Step 1: In Conditions

Choose **Store View** as a condition and select **French** store view (Main Website/ Madison Island Store/French).

Choose **Subtotal** as another condition and fill in information as the following image:

The screenshot shows the 'Shopping Cart Price Rule' configuration page. On the left, a sidebar contains tabs for 'Rule Information', 'Conditions', 'Actions', 'Labels', and 'Manage Coupon Codes'. The 'Conditions' tab is active. The main content area shows the rule title 'discount 10% for \$300 and above orders' and a section titled 'Apply the rule only if the following conditions are met (leave blank for all products)'. Below this, it states 'If ALL of these conditions are TRUE :'. Two conditions are listed: 'Store View is Main Website / Madison Island / French' and 'Subtotal equals or greater than 300'. Each condition has a red 'X' icon to its right, and a green plus icon is visible at the bottom left of the conditions list.

Step 2: In Actions

Go to **Actions**, choose **Percent of product price discount** as a rule to apply and fill in "10" in **Discount Amount** box:

**Shopping Cart Price Rule**
