1. Shopping Cart Price Rule per Store View Extension Overview

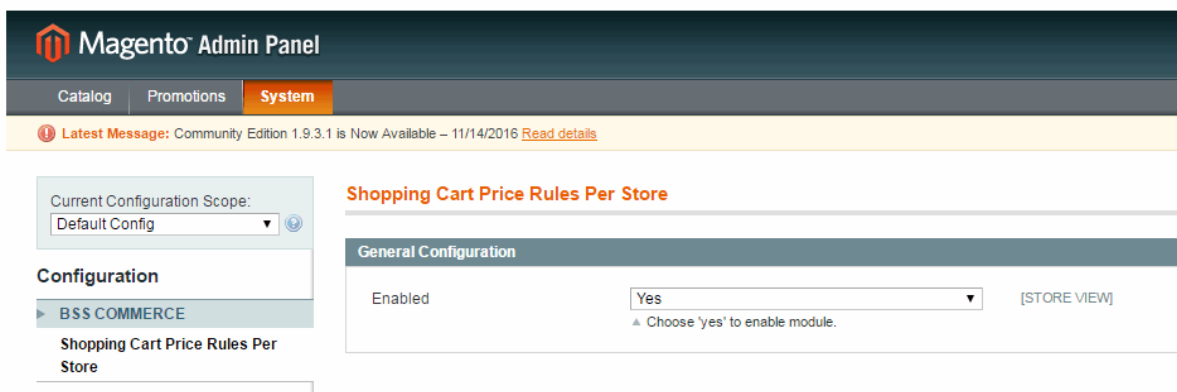

If you are using multiple store views function to do business on your Magento site, have you ever had a demand of creating different shopping cart rules for each store view? Do you want to offer different promotional prices for each target customer group in each store view?

[Shopping Cart Rules per Store View Extension](#) is developed to optimize the multiple store view function by enabling admin to set up different price rules in shopping cart of different store views. With this powerful extension, you can manage your promotional price strategy effectively, leading to boosting up sale and completing multiple store view system.

2. How Does Shopping Cart Price Rule per Store View Extension Work?

2.1. Enable Shopping Cart Rules per Store View Extension

Please go to **System** → **Configuration** → **Shopping Cart Price Rule per Store**

After choosing Yes to enable the extension and click Save Config to start set up shopping cart price rules per store as wish.

2.2. Set up different shopping cart price rules for store views

Go to **Promotions** → **Shopping Cart Price Rules** and click Add New Rule to customize rules for shopping cart in each store view.

In **Rule Information**, fill in Rule Name, Description, Status and other fields with needed information as usual.

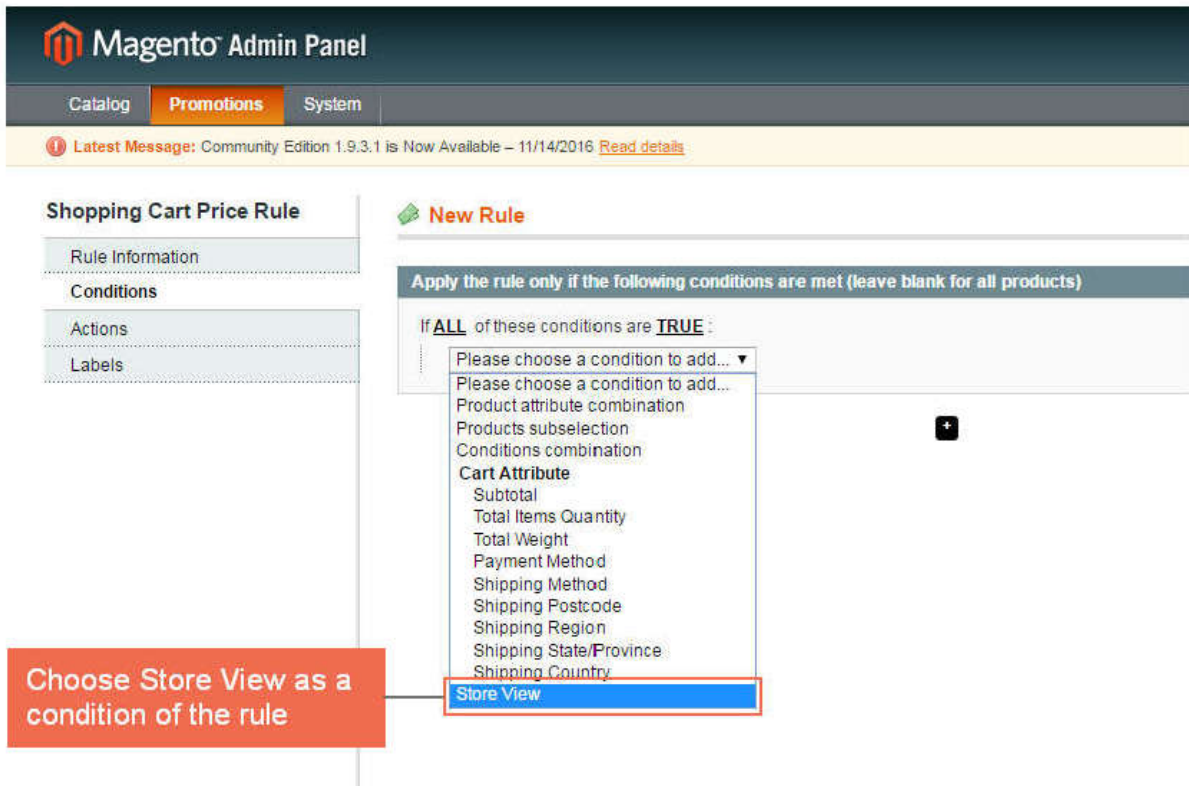

The screenshot displays the Magento Admin Panel interface for creating a new Shopping Cart Price Rule. The top navigation bar includes the Magento logo, 'Admin Panel', a search bar, and user information. The main menu shows 'Promotions' as the active section. A sidebar on the left lists 'Rule Information', 'Conditions', 'Actions', and 'Labels'. The main content area is titled 'New Rule' and contains a 'General Information' section with the following fields:

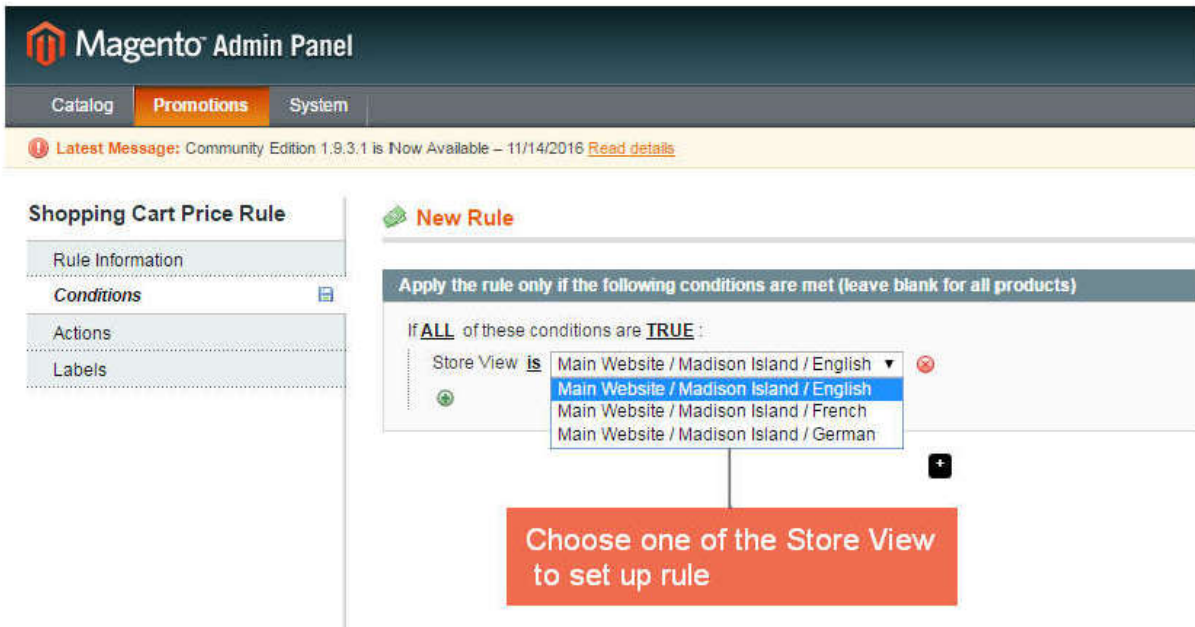

- Rule Name ***: Text input field containing 'Test'.
- Description**: Text area containing 'abc'.
- Status ***: Dropdown menu set to 'Active'.
- Websites ***: Multi-select dropdown menu with 'Main Website' selected.

Buttons for 'Back', 'Reset', 'Save', and 'Save and Continue Edit' are located at the top right of the form.

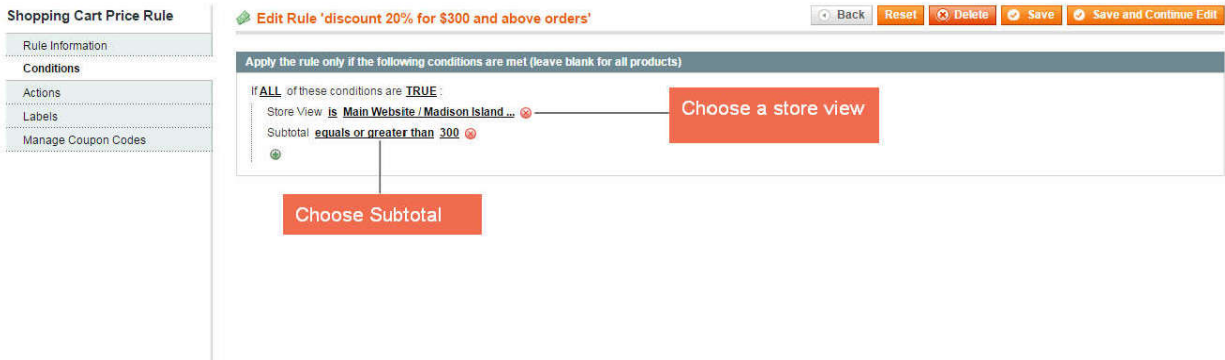

In **Conditions**, choose Store View as an option in condition for rule.

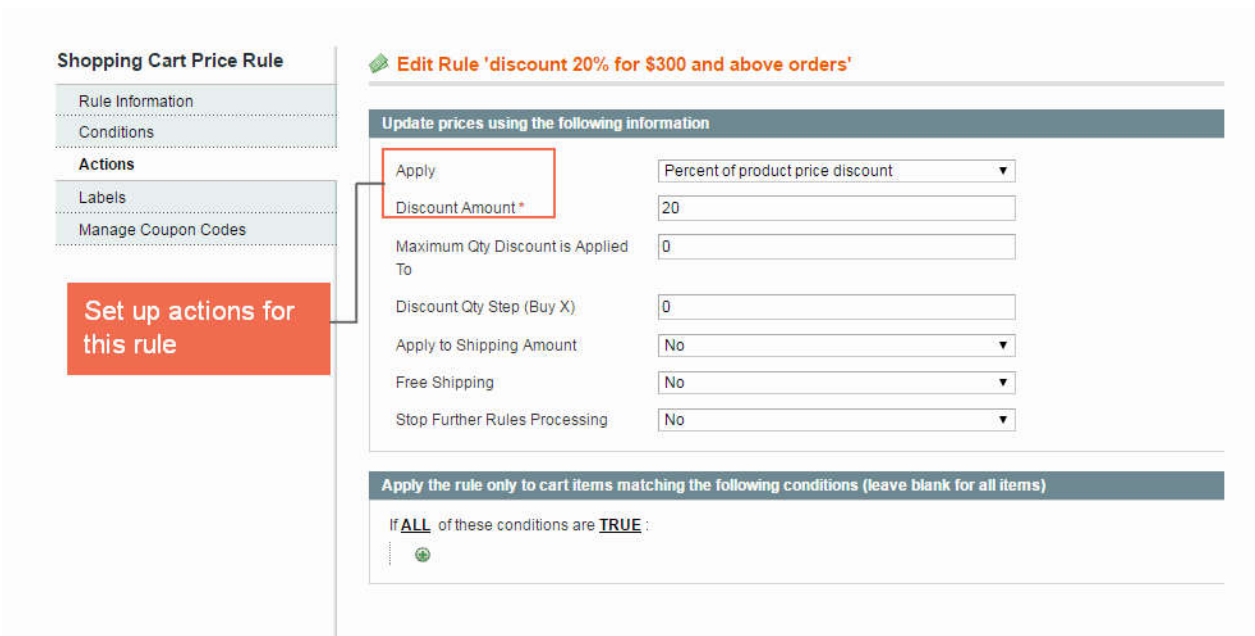

Then choose one Store View in the list of Website/ store/ store view that you want to set up rule for it.

Besides, you can add other conditions as wish.

In Actions, set up detail rules for the chosen store view:

Finally, you save configuration.

2.3. Examples

- ❖ **Example 1: Set up a rule "20% discount for \$300 and above orders" for English store view.**

After click "Add New Rule" button and fill in necessary information in Rule information section, you follow these two steps:

Step 1: In Conditions
